

TEAM EDWARD

Hi, this is a stencil I made for my friend because she really wants a Team Edward patch. I used a stencil generator website <http://strix.org.uk/stencil/> and uploaded a photograph from the internet. Then, I used Microsoft Word STENCIL font to add text. I am going to make patches with it, and there are some nice instructions for doing so here: <http://dirtygrrrlblog.blogspot.com/2012/06/tutorial-diy-punk-patches.html>

Note: The small one is 3 inches in height, so it can be stenciled with spray paint on the free stickers you can get at the USPS. It's hard to cut out that small, but I was able to do it as long as I left a few connecting lines for the eye-glasses. Please feel free to use these or distribute as you see fit, but I'd love it if people kept it free and didn't sell the actual stencil. If anyone does make a version of the stencil that is easier to cut out around the eyes, I'd love it if you shared it with me. ~ @small_affair
